**Recipient has a valid license -** Make sure the recipient has an Office 365 license assigned to them. If they don't have a license, contact your email provider to assign a license. (Users > Active Users > select the recipient > Assigned License > Add)

**Mail flow settings and MX records are correct -** Misconfigured mail flow or MX record settings can cause this error. Check your Office 365 mail flow settings to make sure they're correct. If you're using a third-party provider for MX records, work with your domain registrar to make sure the MX records for your domain are configured correctly.
